Frequently Asked Questions

How much do the vouchers cost?

The vouchers are \$35 each for cats/kittens; \$50 each for dogs/puppies

How long will it take to get my voucher?

Usually within 7 – 10 days. If you pay by check, it will take longer to get your voucher because we deposit them before we issue the voucher. For faster service, you may pay by money order. Those requests are processed the same day they are received.

Is there an expiration date on the voucher, and if so, how long are the vouchers good?

Depending on the age of the pet, the vouchers typically expire after 45 days. This is for 2 reasons. One, we don't want to risk your pet going into heat or getting pregnant; secondly, we want to make sure we have enough money in our bank account to cover each surgery, since we supplement the cost of each voucher. If the pet is younger than 3 months, the voucher is extended for approximately 60 days.

What is the procedure for getting a voucher reissued?

Return the expired voucher to Humane Solution along with a \$10 reissue fee. If the voucher is not for the same pet, please provide a questionnaire with the new pet's information.

Do you ever refund vouchers?

Yes, by request only. You will need to mail in your voucher and ask for a refund. If you choose to donate your voucher fee for our "Spay it Forward" campaign, a tax-deductible receipt will be mailed to you.

How old does a pet have to be before it can be "fixed"?

Typically, 4 months has been the recommended age, however, The American Veterinary Medical Association (AVMA) has approved surgery on pets that are at least 8 weeks old and weigh at least 1 pound. However, not all veterinarians practice pediatric spay/neuter surgery. You will need to check with the vet hospital to determine if they will perform the surgery on a pet under 4 months.

What other services are required for my pet to be spayed/neutered?

A rabies vaccination is required by state law for all animals 12 weeks or older, so if your pet does not have a current vaccine, it will need to be done prior to, or at the time of the surgery. Each veterinary hospital chooses its own standard for what is required, such as certain other vaccines or heartworm test or other blood work. Please check with the hospital you choose to determine their requirements.

****How do I apply for a vaccination allowance?***

Call our phone line (723-3647) and request a vaccine allowance questionnaire, or go to our Web site (www.humanesolution.org) and download one from there. You may either leave your mailing address, or an email address, and a questionnaire will be sent to you.

*Please note that we may not always be able to offer vaccine allowances.
